

Exhaust and silencer

Symbol

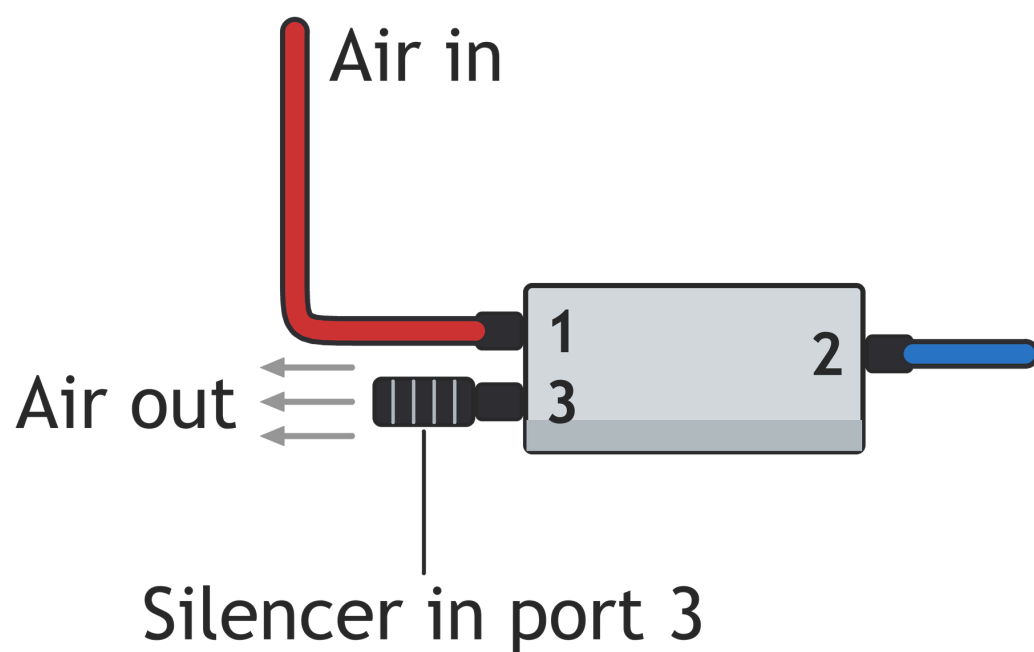

Exhaust

Silencer

What it looks like

What it does

Exhaust is used air leaving the circuit.

It leaves through an **exhaust port**. On a 3/2 valve this is port 3.

A **silencer** makes the exhaust quieter.

Key words

Exhaust

Used air let out of the circuit.

Exhaust port

The port the used air leaves by.

Silencer

A fitting that makes the exhaust quieter.
