

Air supply

Symbol

On the kit

What it does

Main air comes from a compressor. It feeds the whole circuit.

The regulator sets the air pressure. **The gauge** shows it in bar.

Pipes push onto the **air outlets**.

Key words

Main air

The air supply that feeds the circuit.

Pressure

How hard the air pushes. Measured in bar.

Regulator

The knob that sets the air pressure.

Gauge

The dial that shows the air pressure.
